

# COLOMBIAN TREATY PASSED BY SENATE

## RATIFICATION IS FIRST VICTORY OF ADMINISTRATION

Leaders Are Able to Muster Eleven Votes  
More Than the Necessary Two Thirds Ma-  
jority—Lodge's Change of Front Causes  
Stir—Democrats Refrain from Talking

(By The Associated Press)  
WASHINGTON, April 20.—The Colombia treaty growing out of the partitioning of Panama was ratified today by the senate. It provides for the payment by the United States of \$25,000,000 to the South American republic, but has to be approved by the Colombian assembly.

The vote on ratification was 69 to 19, or 11 more than the necessary two thirds majority. Fifteen Republicans and four Democrats voted against ratification. They were:

Republicans: Borah, Capper, Johnson, California; Jones, Washington; Kellogg, Kenyon, LaFollette, Lenroot, McNary, Nelson, Norbeck, South Dakota; Norris, Poindexter, Townsend and Wadsworth.

Democrats: Dial, Reed, Simmons and Watson of Georgia.

Senators Cummins, Republican, Iowa, and Trammell, Democrat, Florida, were paired against ratification.

The administration thru ratification of the treaty won its first fight in the senate. In a message to the special session of the senate, the president recommended ratification as "very helpful in promoting our friendly relationships."

This recommendation was supplemented today by Senator Lodge of Massachusetts, Republican leader, who in reply to attacks of Republican senators of the progressive group, declared ratification was "part of a great national foreign policy" contemplated by President Harding "towards our neighbors in the Southern and Eastern hemispheres."

Forty Republicans were joined by 29 Democrats in voting for ratification. Two Republican Senators, Elkins, West Virginia, and Newberry, Michigan, were absent and not voting.

In the roll call on Senator Borah's amendment to exculpate this nation and its agents from any wrong-doing in acquiring the canal, three Democrats voted with 36 Republicans on the first call and with 27 Republicans on a second call. These Democrats were Kendrick, Wyoming; Reed, Missouri; and Watson, Georgia. Nine Republicans who first voted for the Borah amendment later changed in opposition. These included Lodge, of Massachusetts, McKinley, of Illinois, and Spencer of Missouri.

Lodge Causes Stir.  
A murmur swept the chamber when Senator Lodge changed front on the amendment. A mild demonstration had occurred when he supported it on the first call.

The Poindexter amendment to cut the indemnity of Colombia from \$25,000,000 to \$15,000,000 was supported by 16 Republicans and six Democrats. Twenty-two Republicans and 17 Democrats supported Senator Wadsworth's amendment to prohibit Colombian troops and warships from using the canal in a war against a nation with which the United States was at peace. Prominent among the Republican supporters of this amendment was Senator Knox, Pennsylvania.

The final vote ended eight days of debate. Opponents of ratification composed largely of what is known in the senate as the progressive Republican group were vigorous in their denunciation of the pact. They declared its acceptance would place a stain on the name of Theodore Roosevelt, would be a useless squander of public money and would amount to compliance with a blackmail "demand on the people of Colombia."

Senator Lodge with Senator McCumber of North Dakota, Borah of Idaho, Brandagee of Connecticut, and Fall, then a senator from New Mexico, joined in an adverse report against the treaty as negotiated in the foreign relations committee in 1917 led the fight for ratification. His change, and that of other Republicans from opposition to the original treaty to advocacy of the amended pact, was a point of attack by the progressive Republican group.

Supporters of ratification declared the treaty would improve the relations of the United States with Colombia. The American demands for Colombia included the return of the Panama Canal.

## STATE DEPARTMENT ISSUES STATEMENT ON IMMIGRATION

Hughes Will Make No  
Recommendation  
on Question

DISCUSSION OF  
MATTER IN SENATE

(By The Associated Press)  
WASHINGTON, April 20.—A formal statement issued today by the state department said that Secretary Hughes "did not make and did not intend to make any recommendations whatever regarding immigration" in transmitting to congress reports from American government agents abroad dealing with the movement of emigrants to the United States.

It was stated in an Associated Press despatch last night that Mr. Hughes had made such a recommendation and he was so quoted as saying that "our restriction on immigration should be so rigid that it would be impossible for most of these people to enter the United States," references being made "especially to Armenian, Jews, Persians and Russians."

As a matter of fact that quotation appeared in a paragraph of a report from the American consul at Tiflis relating to people in that district which was among a number of similar reports transmitted to the house and senate immigration committees by Mr. Hughes after Chairman Johnson, of the house committee had asked for information on the subject.

Discussion Reports.

Publication of extracts from the government reports was the subject of discussion today in the house. Representative Chandler, Republican, New York, who formerly was counsel in the United States for Latvia and Lithuania, took exception to an official government report which said that Letts and Lithuanians seeking to leave for the United States were largely people from the slums, the vast majority of them "Jews of the undesirable type." He declared that whoever made that report "communicated to this government that which is absolutely false."

"I do not believe Mr. Hughes authorized this or any similar report," said Mr. Chandler. "It came from abroad. Mr. Hughes is to big and noble brained to consent to anything of that kind."

Chairman Johnson said he thought Mr. Hughes had read all of the reports before sending them to congress and that he knew that he had signed the letter of transmittal.

Mr. Johnson said that if there was to be a dispute about the matter he would send to the state department for all of the reports, but that he thought it would be bad judgment to do so.

Mr. Chandler agreed with him and the discussion was closed.

## TRIPLE HANGING HALTED BY SMALL

Commutes Sentences of Three  
Convicted Murderers Until June  
24—Gives Them Chance to Ap-  
peal to Supreme Court.

(By The Associated Press)  
Chicago, April 20.—Preparations to ra triple hanging scheduled for next Friday were halted at the county jail late today when word was received that the condemned men had been reprieved by Governor Small until June 24. The three men, Oscar McGavock and Grover Redding, negro leaders of a "back to Abyssinia movement" last June which resulted in a riot in which two white men were killed, and Harry Ward, a white bandit, known as "the wolf" were to have been removed to the death cell tomorrow.

The reprieve was granted to permit the convicted men to appeal their cases to the supreme court.

Both Redding and McGavock were convicted of killing an American sailor, in the Abyssinian riots in Chicago last June. Ward was convicted of murdering two men last summer while robbing a hat store.

## John P. Cudahy Kills Himself in California

(By The Associated Press)  
LOS ANGELES, April 20.—John P. (Jack) Cudahy, son of the late Patrick Cudahy, internationally known meat packer of Kansas City was found dead today in his bedroom with a shotgun wound in his head, committed suicide after failing to negotiate a \$10,000 loan with a Chicago bank Detective Sergeant Mc Mahan said tonight.

Mrs. Cudahy said tonight, widow, told him her husband received a letter yesterday from an officer of the bank informing him the loan could not be carried unless "vouched for" by another member of the Cudahy family. Today, according to McMahon, Cudahy received a telegram from the relative in question declining to vouch for the loan.

Mrs. Cudahy also said, according to McMahon, that her husband had been despondent for some time. She was the first to reach the room in which the tragedy occurred, after the noise of the shot alarmed the household.

Dr. L. J. Huff, said tonight he had been attending Cudahy for about a month past for nervous disorders, accompanied by insomnia. Prior to that time, the doctor said, Cudahy was in a sanitarium near Pasadena for several weeks.

Ten days ago the doctor said he was called to a Los Angeles hotel where he found Cudahy registered under an assumed name. He was in a highly nervous condition and had taken, accidentally, the doctor said, an overdose of a compound containing poison.

## CONGRESS ASKED TO INVESTIGATE FARM PROBLEMS

National Farmer's Union Passes Resolution Wednesday  
DO NOT LIKE TO BE  
CALLED PROFITEERS

(By The Associated Press)  
WASHINGTON, April 20.—Congress was urged in a resolution adopted today by the National Farmer's Union to appoint a joint commission to determine "what is wrong with agriculture," and to enact legislation to "correct the discovered and established evils."

"The farmers have been branded as profiteers," the resolution said, "and have been accused of taking or threatening to take measures which would result in a dangerously diminished quantity of available products," adding that the country was entitled to know the facts and that Congress was the only agency equipped to "ascertain the truth."

It charged that farmers have been discriminated against in the matters of credit and transportation and that they had been forced to sell their products below the cost of the production while residents of the cities had been compelled to pay "five or six times for their food the amount which the producers obtained."

Secretary Wallace urged farm organizations to take constructive steps to build up an organization to adequately protect and promote agriculture.

In quick succession resolutions were passed for the appointment of committees to report on losses of the farmers and the amount of credit extended in comparison with other industries, and also on the "unfair practices and discrimination against co-operative concerns."

Members of the Farmers' Union were said by Mr. Reed, their national secretary, to have \$30,000,000 invested in co-operative organizations which did a turnover in business volume last year of over \$600,000,000. "When you see boards of trade and chambers of commerce putting any farm organization on the back," he continued, "it's not worth a cuss to the farmers," adding that "we have blood in our eyes for that crowd."

COLORED MASON IS  
ACQUITTED OF MURDER  
Chicago, April 20.—Jackson C. McKibbin, supreme grandmaster of the Masonic colored lodges in Illinois, was acquitted of murder today by a jury in Judge Foell's court. McKibbin pleaded self defense for shooting and killing James Crenshaw on February 11, 1921, during an argument over fraternal affairs.

## NEW YORK MEMBERS MAKE ATTACK ON IMMIGRATION BILL

Claim it Will Ex-  
tinguish Hope and Pro-  
gress of World

LACK OF SYMPATHY  
WRAPPED IN MEASURE

(By The Associated Press)  
WASHINGTON, April 20.—The immigration restriction bill drew sharp fire today in the house, especially from New York members, and was as vigorously urged by Chairman Johnson of the immigration committee, and the representatives who declared legislation to keep out undesirable immigrants was necessary.

Debate continued thruout today and will be resumed tomorrow with a vote expected before adjournment, or on Friday. While confident of its passage leaders conceded it would not receive the overwhelming vote that a similar bill did at the last session.

Opposing the bill were Representative Cockeran, Democrat; Seigel, Republican; Chandler, Republican, and London, Socialist, all of New York; Sabath, Democrat, Illinois; Stevens, Democrat, South Carolina; and Hudelson, Democrat, Alabama. Representative Cockeran declared the bill marked the renunciation and abandonment of the policy which had fixed the position of the United States in the civilized world.

Stiff Opposition to Bill.  
"This bill, if passed," Mr. Cockeran said, "will extinguish light of hope and progress thruout the world. Under your restriction no one may come here unless he is a sailor, a soldier, a potential statesman or a scholar and a gentleman."

The house was told by Representative Sabath that persons fleeing from political and religious oppression could not be admitted to the United States under the bill as presented. Such persons, he insisted, should be permitted to seek refuge here.

Mr. London said the measure would "strike at the very people we went to war to emancipate," and charged the bill was an expression of prejudice.

Representative Chandler declared present laws were adequate to keep out undesirable aliens and added:

"I want to enter a solemn protest against the utter lack of international sympathy, wrapped up in this measure."

Reference to the case of Eugene V. Debs was made by Mr. Stevenson. He criticized the action of Attorney General Dougherty in permitting Debs to divest himself of his prison garb and come to Washington at his will to seek a pardon.

## NO CITIZENS WILL BE ALLOWED TO LEAVE

DUBLIN, April 20.—The Daily Elreann has decreed that "no citizen of Ireland shall leave Ireland without permission of the proper authorities."

Under the decree shipping and emigration agents are forbidden to accept passage money or to issue tickets to intending Irish immigrants, "unless they produce a printed permit signed by the minister for home affairs and sealed with the seal of the Republic."

Persons disobeying these regulations will be "deemed guilty of a grave offense against the welfare of the state in time of war and dealt with accordingly."

## THORNE APPOINTED GENERAL COUNSEL

CHICAGO, April 20.—Clifford Thorne of Chicago, today was appointed general counsel of the United States Grain Growers, Inc., by the board of directors. Mr. Thorne's appointment is for one year.

He was a member of the marketing committee of 17 and headed the committee of five attorneys who drew up the incorporation papers of the United States Grain Growers, Inc.

Announcement also was made of the appointment of William G. Schhardt of DeKalb, Ill., as head of the organization department.

## LOVE BANDIT ROBS BLOOMINGTON DRUG STORE

Bloomington, April 20.—A lone bandit entered the drug store of R. R. Enlow, which is also a post-office sub-station, at 10 o'clock tonight, covered the proprietor with a gun and took all the cash in the drug store and also the money received by the postal station during the day. It is estimated that the total amount obtained was \$150.

## CHICAGO RESIDENTS ARE ATTACKED AT POTSDAM GERMANY

Mr. and Mrs. J. E. Tobinson Are Pelted With  
Stones and Beaten With Umbrellas—Are  
Rescued by Policeman and Civilians—  
Assailants Thought They Were French

(By The Associated Press)  
BERLIN, April 20.—J. E. Tobinson and his wife, residents of Chicago, were attacked by a crowd Tuesday as they sat on the terrace of Sans Souci Park, following the funeral of former Empress Augusta Victoria.

They were rescued by a policeman and two German civilians, who surrounded them, accepting a pelting of sticks, stones and umbrellas in defense of the couple, until they were able to escort them to the police station in Potsdam. A patrol of extra policemen then dispersed the crowd.

During the attack the policeman and the two German civilians were unable to quiet the crowd, members of which were shouting, "foreigners!" "French people!"

Mr. Tobinson was beaten about the head and shoulders, and his wife received a bruised nose. Her hat was torn from her head, her hair was pulled and she was struck on her arms and body by umbrellas.

Potsdam police headquarters in its reports said: "The Americans were not to blame and they desire that there be no further mention of the affair."

"The mob," said Mr. Tobinson today, "was incited by an old woman who thought we were French. It is my opinion that we would have been killed except for one policeman and two German civilians. The police did all that was possible. I desire to make no representations to the German government."

Tell of Trouble.  
Mrs. Tobinson, a graduate of a college in Valparaiso, Ind., which her husband, a civil engineer, also attended, said:

"We were sitting on the terrace, speaking English. There were three women sitting in the same seat. One turned to her companions and declared we were French. They began abusing foreigners. I could not understand what they said but I realized the women were very angry."

"A crowd gathered. The old woman declared we had spoken in French words derogatory to the former empress. Neither of us understood French. One of the old woman's companions tried to explain we were discussing the beauty of the park and regretting we had no films for our camera."

"The crowd drew nearer, shouting that we were French and the children began to throw stones. The crowd struck my husband with canes and umbrellas. He tried to protect me as we ran and then two civilians and the policeman came to our aid. There were several hundred persons following before we reached the police station."

Mr. Tobinson when questioned, declared he and his wife were born in Russia. Mrs. Tobinson, he asserted, is the daughter of American parents, but that he is a naturalized citizen. He said he could speak neither Russian nor French.

Mrs. Tobinson later took Mr. and Mrs. Tobinson in an automobile to Waukegan and put them on a train bound for Berlin.

## ORGANIZE TO DEAL WITH JAP PROBLEM

Eleven Far Western States Meet  
for Organization—Senator Johnson  
Chairman of Executive Committee

(By The Associated Press)  
Washington, April 20.—Active work by the organization of senators and representatives of eleven far western states, perfected today for the purpose of uniting efforts for dealing with the Japanese immigration problem, will begin within the next week. Senator Johnson, Republican, of California, chairman of the executive committee announced tonight that he would name a committee of one senator and one representative from each of the states this week.

The first work of the organization, it was announced, would be to make a survey of the situation with the expectation of submitting information collected to other states for possible action.

Members today emphasized "the necessity of nation-wide co-operation" with the western states in facing conditions they described as threatening unless remedial steps were immediately undertaken.

## LABOR TROUBLES ASSUME BROADER SCOPE

New York, April 20.—Difficulties between steamship owners here and their employees in negotiating a contract to supersede that expiring on May 1, assumed broader scope today when the Stewards' and Cooks' unions joined the seamen and firemen in laying down conditions for the new contract.

The only bar to the "trade with Russia" idea is the fact that there is no surety of collecting the money for the goods, the deduction that Russia has plenty of gold has been disposed of.

A community high school, unique in that the entire center of the building will be erected in such a manner that it may be used by the public without interfering with the school's operation, is to be erected in Detroit at a cost of \$1,000,000.

The Des Moines street railway company and the Des Moines Motor Bus Association have resorted to newspaper advertising in efforts to get and hold the public good will, and incidentally get patrons. Meantime the riding public is rather impartial and uses which ever comes along first.

General investigation of present railroad conditions has been ordered by the U. S. senate. Conditions will probably be well settled by the time they are ready to report.

Idle freight cars numbered 495,564 about the first of April of this year. If freight rates are

boosted much higher that figure regarding cars is apt to increase, as well as the number of idle railroad employees.

A loaf of bread costs \$2.00 worth of rubles at their face value in Russia, while it is stated a man might buy food enough for a year for \$5 in American money.

Gov. Small, while favoring the construction of the proposed Illinois deep waterway balks at the estimated price of \$35,000,000, which is \$20,000,000 in excess of the bond issue voted by the people. Governor Small has been considering waterway construction for some time, but finds the price out of reason. The governor's attitude on the waterway is the same as that on hard roads that the price must come down before work begins.

## MORE THAN PLEDGED

With the farmer's national gift corn project for starving children of Central Europe ended this week, Illinois takes rank as the leading giver among the ten corn belt states represented, with a contribution of 147 car loads or about 2000,000 bushels.

The national donation amounts to 431 car loads or about 600,000 bushels. The other states and the amount of their gifts in car loads are Ohio, 77; Indiana, 44; Minnesota, 44; Iowa, 36; South Dakota, 31; Missouri, 22; Nebraska, 20; Kansas, 16; Colorado, 4. The Illinois gift is 10% more cars than were pledged from the state when the movement was launched at Chicago late last winter.

Propaganda of the organized "Reds," whose declared purpose he said is to overthrow the government by force, should be met with counter influences of patriotism, Adj. Gen. Dickson has declared in startling, rather em-

phatic language as he referred to a "call to arms" circular of the Communist Party. "There is organization behind this kind of propaganda," Gen. Dickson said. "Its headquarters and its purposes are known. The people should be awakened to the fact that the country is being flooded with propaganda to overthrow the government, not by any peaceful means either. The best way to fight the propaganda of the Reds is to create a sentiment, a counter influence against such literature as that. These propagandists advocate force but it is ridiculous to say they should be fought by force," he continued. "Stir up the American intelligence, common sense and patriotism, direct it against such stuff as this and it will do more than anything else to wipe out Red propaganda."

## FREIGHT BY WATER

Traffic on the Mississippi river is increasing at a rate that presages a return to conditions prevailing before the Civil War, when St. Louis did practically all of its shipping by the water route.

The report of the Merchants' Exchange shows that 344,055 tons of freight were handled on the river in 1920, 177,925 tons being received, and 166,130 shipped. In 1917, the receipts amounted to 83,074 tons and the shipments, 67,310, a total of 150,384. In 1915, when river traffic was at its height, the St. Louis harbor master's report shows the total freight tonnage for St. Louis was 844,951, handled by 3,149 vessels. Semi-weekly shipments by this route are contemplated.

U. S. MARSHAL. The following item taken from a Washington special to the Springfield Journal contains some news and, we believe, some mis-statements. Mr. Simpson is a man of high reputation and fully capable of filling the position as United States Marshal of this district: "S. Elmer Simpson, Republican leader of Carrollton, Greene county, has emerged as the most likely successor to V. Y. Dallman as United States marshal of the Southern Illinois district in consideration for Simpson's support of a non-partisan ticket at the Springfield convention. The Sangamon county Republican committee has endorsed Simpson for the place. Simpson swung the Greene county delegation behind the non-partisan ticket, insuring the election of the sitting circuit judges, Smith, Jones and Burton. Dallman's commission still has two years to run, but he may resign, in which case Simpson will be recommended to succeed him."

STATE POLICE BILL. The legislature will soon act on the proposed state police bill. There is great need for the establishment of this system in the rural districts of the state. The proposed bill provides for not less than three and not more than seven troops of 65 men each including officers, whose duty it shall be to patrol the rural districts and principal highways of the state; to co-operate with state and local authorities in the enforcement of the fire, fish, game, forestry, public health, animal disease and road and bridge laws; to co-operate with the attorney general, the sheriff or state's attorney of any county, the mayor or police authorities of any city, at the request of any such officer, in the conservation of the peace, prevention of crimes and the detection and apprehension of offenders.

It is thought that four troops, a total of 260 men, will be adequate for the present. These four companies would be assigned to four different parts of the state. Each company would have its headquarters where convenient and twelve men would be held for drill and study, and to serve as emergency reserves. The remaining number would be divided into units of three or four men, assigned to sub-stations, who would patrol that part of the state allotted to them. Every sub-station would be connected with company headquarters by telephone. The probable cost would be about \$400,000 per year.

## RESIDENCE PROPERTY AT AUCTION

## HELD BABY CLINIC YESTERDAY

In connection with the State-wide Health campaign which is being carried on this week, a baby clinic was conducted yesterday from 9 a. m. to 4 p. m. in the Red Cross rooms at the public library. Dr. E. D. Canasey was the examining physician in charge and Miss Loving, the Morgan county nurse, sat up the clinic. A number of children were examined and if the weather had been more agreeable, doubtless there would have been many more. Miss Rynan, Miss Buchanan and Miss Loving assisted in weighing and measuring the babies and Dr. Canasey gave advice to mothers as regards diets and care. Pamphlets were also distributed giving advice on diet, care and feeding of children. The clinic was a great success in every way and proved that there are many mothers anxious to take advantage of such public health work as this.

## OLD JACKSONVILLE

## A FEW OLD LETTERS

(BY ENSLEY MOORE)  
Member Illinois State Historical Society

One of the first families referred to in this series of papers was the Posey.

Wm. C. Posey was one of our earliest settlers, and a charter member of the "First Presbyterian church of Morgan county," as our original "First church" was called at the time. Being a son of Gen. Thomas Posey, his mother was Mrs. Thornton, of Virginia (state), the second wife of Gen. Posey. Gen. Posey came to Kentucky, being in state offices there, in military service again, went to Louisiana, where he was appointed U. S. Senator—serving about a year—and was territorial governor of Indiana, and was last an Indian agent. He died at Shawneetown, Ill., March 19, 1818.

Wm. C. Posey married a daughter of the Rev. Samuel Annells, of Kentucky. Posey and Judge Leeper were the first elders of our First Presbyterian church, and Posey one of the best men Jacksonville ever counted among its citizens.

Wm. C. Posey was the father of Mary Ann Craig, William, Thomas, Jane Eliza, Margaret, Rees, Fannie and John, besides two children who died in infancy; and Sarah, wife of James I. Barrow, was another daughter. Mr. Posey was a leading man here, and died in 1849; dying on his farm south east of town.

Wm. E. Barrows, son of James I., has kindly loaned the "O. J." men three letters written by Joseph M. Street, post master at Prairie Du Chien, Wisconsin Territory. They were folded in the old fashioned, complicated way, and sealed with a wafer. Some one has labeled them "General Street" on the face of the letters. Judge Moses, in his "Illinois," refers to Street as "Gen. Street, Indian agent at Prairie Du Chien. Street also marked his letters as post-master, two of them "free." He must have been only post master of the military post then. He is also referred to in conflict with Black Hawk.

Gen. Street was evidently a very religious man, used to the amenities or finer things of life, and a finer person and speaker than was usual in those days. His first letter, addressed to Mr. Wm. C. Posey, was dated January, 1830, no day given. He signed his letter: "I remain, my dear sir, your friend and affectionate Brother."

Street opened the letter by saying: "Inclosed you will receive a \$5 note of the U. S.

Bank, which, please hand over to the Treasurer of Illinois College. I regard my circumstances will not justify a subscription more correspondent to my wishes and the high ideas I entertain of the usefulness which this institution, under a proper management, is destined, and he goes further, showing his "vision" of what "Illinois" would be. He believed that the nation must be built by God. He also referred to the treaty made there with the Winnebago Indians, which had helped to busy him.

Gen. Street's wife had "presented" him with his seventh son, whom they named John Lloyd.

The second letter was dated Feb. 3, 1830. Street had overlooked sending his \$5 in the former letter, but did so this time. The thermometer had sunk to 17 degrees below zero, a few days before, and the weather was very cold. Ice was two feet thick in the Mississippi, affording a short and easy route, or at least an easy one, to St. Peters, some three hundred miles off. "Trains" ran on the ice, but they were horse-drawn; neither steam nor electrically driven. Speaking of hopes of visiting here, the coming summer, Gen. Street said: "The children are delighted at the prospect of seeing Uncle William, Aunt Sarah and the cousins."

In both letters Gen. Street lamented the lack of preaching and church services, and hoped for a Missionary of his church. He signed this letter: "I remain my dear Brother with great respect your affectionate friend."

The Last Letter was dated January 17, 1834. He had lately been in Jacksonville. He had evidently left some of his children here. Probably at school, which he spoke of in a previous letter—one for "female education." He speaks of a cousin who "bought a woman, her husband and two small children, a few days ago, for \$1000. Woman and child \$600, man \$400." Female suffrage may already have begun to help the helpless. The same cousin was raising tobacco, "and getting it to market as fast as he can." Speaking of the slave purchase, Street said:

"I am sorry it was not a tract of land in Morgan. Such a man would be quite rich on a farm near Jacksonville in 10 years." He sends remembrances to many of the relatives by name. "I am my dear brother with great respect and affection your friend and mt. obed., Joseph M. Street."

## ARRANGEMENTS MADE FOR M'CAULEY VISIT

State Commander of American Legion Will be Here Friday Night—Meeting to be Held in David Prince Building.

Final arrangements have been completed for the visit of William R. McCauley, state commander of the American Legion. In accordance with the expressed wish of Commander McCauley a public meeting will be held in the David Prince gymnasium on Friday evening at 8 o'clock.

This meeting will be open to the public and a cordial invitation is extended to the people to attend this meeting and hear Mr. McCauley, the representative of the tens of thousands of ex-service men and women of the state of Illinois.

Also, following the expressed wish of Commander McCauley, the public meeting will be followed by a meeting for ex-service men and women at which time they will have something of special interest to say to those who were enrolled in active military service for Uncle Sam during the great World War. Invitations have been sent to the American Legion Post of Morgan county requesting them to attend this meeting.

The meeting of ex-service men and women, is for all ex-service men and women regardless of whether they are members of the American Legion and all ex-service men and women are requested to attend the public meeting and to remain afterward for the meeting which is arranged specially for them.

The ladies of the Service Star Legion will serve refreshments at the close of the meeting for ex-service men and women.

A suitable musical program will be carried out during the evening.

BIDS Bids will be received at this office up to the 25th inst, for excavating a basement 24 ft. by 22 ft. and 5 ft. deep, the dirt to be taken away. We reserve the right to accept or refuse any or all bids.

## CAUTION

Remember that the fly that crawls over your food at the dinner table may be fresh from the garbage or slop pail, a spittoon, a privy, a manure pile, or some other filthy place! Stop and think of the filth that must be sticking to flies' feet from such places and the danger you run from allowing flies in your house and permitting fly breeding places upon your premises.

Earl Crawford was a city arrival from Orleans yesterday.

More About Our  
\$38.50  
Suit Offer

The materials that we are offering for your selection are genuine high-grade Worsteds of seasonable weight, in various light and dark patterns, material that is guaranteed to wear well and to hold the shape and style in which it is made up.

You must realize that our price of \$38.50 for a tailored-to-measure suit of this quality is a distinct departure from the prices it has been necessary to charge during the past two or three years, and it will be possible to continue it only so long as our weekly output of finished suits reaches the mark we had set when first making the announcement of a reduction.

Of course at the price we purchased these Worsteds (and we are promised more at the same figures if we need them) we expected to make some reduction. But we concluded that now is the time to establish again pre-war prices, believing the public would buy in numbers sufficient to enable us to maintain the price set, and so far our faith has been justified.

A certain profit is necessary in order to keep any business going and if the output continues small the selling cost is high, but as production increases selling costs correspondingly decrease. Remember, \$38.50 is the price for these high-grade materials made up into a 3-piece suit and includes the best of workmanship and trimmings—and satisfaction guaranteed. This price is lower than some of these patterns could have been sold for before the advent of high prices.

## Brunswick Phonographs and Records

### Why the Brunswick Pho- nograph Is What It Is

While we rely entirely on the inherent merit of the  
BRUNSWICK to prove its own case, as it has always done  
—yet, it is a source of great satisfaction to occasionally  
reflect on the wonderful organization and resources back  
of it which has not only been responsible for the present  
unique position of esteem in which the instrument is uni-  
versally held, but which also furnishes us and our clientele  
of BRUNSWICK owners with the satisfying assurance that  
the BRUNSWICK will always be the most desired of all  
phonographs.

#### A FEW FACTS CONCERNING THE MANUFACTUR- ERS OF THE BRUNSWICK PHONOGRAPH

- They are capitalized for \$50,000,000.00.
- have branch offices in twenty-five cities in the United States
- five in Canada, one in France, one in Cuba and one in South America.
- operate their own timber lands in Northern Michigan.
- make every part of the BRUNSWICK PHONOGRAPH in its entirety.
- are the only phonograph manufacturers in the United States, and we think, the only one in the world, that actually does this.
- have at the present time seven factories devoted to the manu-  
facture of phonographs and parts, and two factories to the  
pressing of records.
- cut their own veneer logs and slice their own veneer.
- manufacture their own panels and are just completing a plant  
to manufacture shipping cases for their phonographs.

Ponder over these facts and you will readily discover the  
reason of our enthusiasm for BRUNSWICK  
Phonographs and Records.

#### HEAR, THEN COMPARE

The way to fully appreciate the superiority of the BRUNSWICK is to hear it, then make comparison. Your ear will quickly decide in favor of the BRUNSWICK.

## ANNUAL MEETING OF STATE STREET CHURCH

Ladies Aid Society Served Supper After Which the Business Session Was Held—Church Has Active Membership of 371.

The annual congregational meeting of State Street Presbyterian church was held at the church last evening. A delightful supper was served by the Ladies Aid society at 6:15 o'clock.

The business session followed the supper, with Rev. W. H. Muebach acting as moderator and E. M. Dunlap as clerk of the congregation. In reporting for the elders, T. M. Tomlinson, the clerk, reported 34 additions to the church roll during the year. The revised roll made after deducting deaths, dismissals and suspended roll shows an active resident membership of 371. The deceased members of the year included Mrs. Joseph Cridland, Mrs. Charles Baker, Miss Mary Bryant, Mr. John McCormick and Mr. John Vickery.

F. E. Farrell, church treasurer, reported receipts of \$8,459.41 and current expense at \$8,459.41, which sum included \$229.08 given to Passavant hospital. The benevolence moneys given thru the channels of the church to the various boards was as follows. This included such agencies as the church, Sunday school, Women's Missionary Society and Y. P. S. C. E.

Home Missions ..... \$ 782.12  
Foreign Missions ..... 978.37  
Board of Education ..... 3289.50  
Board of Sunday School work ..... 88.32  
Board of Church Extension ..... 49.50  
Board of Ministerial Relief ..... 99.00  
Board of Freedmen ..... 59.46  
Temperance (including Anti-Saloon League) ..... 142.53  
Committee on Evangelism ..... 4.95  
Committee on Men's Work ..... 4.95  
New Era Movement expenses ..... 49.50

Total to Church Boards, \$5548.26  
Benevolences outside of church boards, included \$224.95 for Interchurch World Movement Debt, \$36.50 to support of a French orphan, \$7.50 to Thanksgiving baskets for Olivet Institute, Chicago, \$5.00 to missionary work of Miss Susie Eames in China, \$47.00 given by Primary department of the Sunday school to the Near East and Central Europe Famine Relief work.

Complete figures were not available for gifts to Passavant Hospital campaign, or the Near East and European Relief. The church choir gave \$120.00 to Passavant hospital as a result of the Vesper service held in the fall.

C. A. Johnson reported for the board of trustees, saying that all bills had been paid. It was reported that the church is carrying \$56,000 fire insurance and \$22,500 tornado insurance.

He also reported that the current expense budget for the coming year had been met by pledges. The deacons were represented by Emmet Miller.

An encouraging Sunday school report was made by Thompson Brady, secretary. An increased average attendance was noted as well as increased efficiency. The collections amounted to \$511.89. Of this amount \$201.27 was given to benevolences. Current expenses were \$334.93.

Miss Elson Pires read an interesting report for the Young People's Society of Christian Endeavor, reporting special features in the year's work. Moneys used by this society amounted to \$235.00 of which \$20.00 was given to benevolences. Plans for attendance at the summer young people's conference at Petersburg, Ill., were unfolded.

Mrs. John Cherry reported for the Women's Missionary Society. Collections of \$478.22 and disbursements of \$473.31 were reported.

The Ladies' Aid, represented by Mrs. W. D. Doying, reported worth while monthly meetings, suppers, sewed, hospital sewing, church calling and other activities. The society has resolved itself into "Building Boosters" having as an aim the remodeling of the church.

Mrs. George Hollinger spoke of fruit and other gifts to Passavant hospital. Disbursements for this society amounted to \$398.14.

Miss Marie Seibert spoke briefly of the Junior C. E. Society.

F. E. Farrell reported for Passavant hospital. He referred to an increased interest on the part of the churches of the city and county. He spoke of the new laundry and other improvements.

The election of officers resulted in the following choice:

Elders—A. G. Leedy, James W. Brown, P. V. Goover and John L. Johnson.

Trustees—A. L. Adams, W. G. Goebel, Harry B. Brady.

Deacons—John B. Seibert, Dr. Garm Norbury, Samuel M. Foley, Walter Grassley.

Music committee—Mrs. George Hollinger and John L. Johnson.

Passavant Hospital Trustees—Walter Ayers and F. E. Farrell.

By formal action the congregation voted to contribute two per cent of its current budget of the ensuing year to Passavant hospital.

A representative committee was appointed to investigate the matter of redecorating or remodeling the Sunday school building.

All in all the meeting was a fitting close to a year marked by worth while activity along many lines.

**LOCK IN WORLD**

Canal Lock Will be Larger  
Than Any in Panama

**WILL GIVE FARMERS**  
**LOWER FREIGHT RATES**

(By The Associated Press)  
SPRINGFIELD, Ill., April 20.—  
When the Illinois waterway is  
constructed it will contain the  
highest lift large canal lock in  
the world, William L. Sackett,  
superintendent of the division of  
waterways, said today.

"Engineers for the division  
have nearly completed the de-  
signs," Mr. Sackett said. "Not  
even the great Panama locks have  
as high a lift as the lock to be  
built at Lockport, where the  
work on the Illinois waterway will  
start."

"There are other locks of small-  
er dimension having the same or  
greater lift, but this lock will be  
110 feet wide and have 600 feet  
of usable length, with a lift of  
42 feet. Its walls will be as high  
as the ordinary six story build-  
ing and the over-length as long  
as two ordinary city blocks. The  
width of the lock in the clear will  
be twice the width of an ordinary  
city street."

"This lock will pass 10,000 net  
tons of freight in barges drawing  
seven feet of water. This tonnage  
would make a freight train over  
two miles long."

"In construction of the new  
Illinois waterway the state will  
build four other locks of the same  
horizontal dimensions and when  
this waterway is completed Chi-  
cago will have a water connec-  
tion with southern Illinois coal  
fields and with the Gulf unsur-  
passed by any barge canal."

"The need for this waterway  
is keenly felt by shippers and  
farmers alike, due to existing  
high freight rates. The farmers of  
Argentina and Australia can ship  
their grain and meat by water to  
seaboard ports of America for less  
than farmers in Iowa and Illinois  
can ship by rail to New York or  
New Orleans, which to a large de-  
gree explains present low prices  
for American farm products. Use  
of waterways will help overcome  
this great disadvantage."

**SENDS MESSAGE OF**  
**SYMPATHY TO GOV. MURRAY**

Dublin, April 20.—Lord Mayor  
O'Neill of Dublin, chairman of the  
Irish White Cross, today sent a  
message to Gov. Murray of Arkan-  
sas, expressing sympathy for the  
loss of life and property incurred  
thru the tornado of last week.  
Mayor O'Neill suggested that the  
people of Arkansas engaged in the  
campaign to relieve the distress in  
Ireland should divert contribu-  
tions for Irish relief to the victims  
of the tornado.

**FLORETH WEST SIDE**  
**STORE SOON TO OPEN**

New Dry Goods Establishment  
Will Occupy Building Long  
Used for This Line of Business.

Before the week is over the  
west side store of the Floreth  
Dry Goods Co. will be opened to  
the public. The store is at No.  
9 West Side square in the build-  
ing recently vacated by the But-  
terick Publishing Co. and for so  
many years the home of the O. K.  
store. William H. Floreth, Jr.,  
who has recently returned from  
Chicago to Jacksonville, is to be  
the manager of this store and  
will have associated with him  
Mr. Huffman, who has been so  
long connected with the east side  
store. A policy will be followed  
which the public will be certain  
to approve.

During recent weeks the inter-  
ior of the building has been en-  
tirely remodeled and thru paint-  
ing and decorating process is now  
in very satisfactory and attract-  
ive condition. An entirely new  
and very extensive stock of goods  
will be offered to the public.

Mr. Floreth took advantage of  
present market conditions in  
making the purchases for this es-  
tablishment and the offerings will  
attract careful buyers.

The building which is now to  
be occupied by the west side site  
of the Floreth Co., has been  
used for dry goods pur-  
posed for fifty years. It was  
originally the store of the late  
William Russell and after-  
ward under the name of  
the O. K. store passed to the own-  
ership of Frank J. Waddell and  
Carl S. Hillerby. In more re-  
cent years Mr. Hillerby was the  
proprietor. Eventually the two  
Floreth stores will be consoli-  
dated in the west side site, as Mr.  
Floreth's lease on the east side  
building will expire in something  
less than two years. At that time  
the east side building will be oc-  
cupied by J. A. Long's drug store.  
The building he is at present oc-  
cupying some months ago passed  
to the ownership of the Elliott  
State bank and the site will be  
utilized along with that of the  
building occupied by J. Herman,  
which the bank also owns for the  
proposed new Elliott State Bank  
building.

The success which marked the  
east side store of the Floreth Co.  
makes certain that the west side  
establishment will have its im-  
portant place among the business  
institutions of Jacksonville.

**Believe It Will Start a Revival**  
**in Business.**

(By The Associated Press)  
Washington, April 20.—Dele-  
gates to the National Farmers'  
Union accompanied by members  
of congress, will call upon Pres-  
ident Harding tomorrow to urge  
an immediate reduction in freight  
rates. Leaders tonight indicated  
that the president would be asked  
to call a conference of labor, cap-  
ital, representatives of the basic  
industries, the railroad labor board  
and the interstate commerce com-  
mission to this end.

The conference was arranged af-  
ter the farmers had held an infor-  
mal conference with members of  
the interstate commerce com-  
mission. This conference was de-  
scribed by delegates as unsatisfac-  
tory. Members of the commis-  
sion, it was said, suggested that  
the farmers meet with representa-  
tives of labor, steel and the basic  
industries in an effort to decide up-  
on some program for reducing the  
operating expenses of the rail-  
roads so necessary to the reduc-  
tion of rates.

The farmers declared they would  
tell the president that a reduction  
in rates would start a revival not  
only in agriculture but in the  
manufacturing and other indus-  
tries.

**ARREST MEMBERS OF**  
**BIG WHISKEY RING**

(By The Associated Press)  
CLEVELAND, O., April 20.—  
Nine members of what police say  
is one of the biggest whiskey rings  
in the country had been arrested  
tonight following a gun battle to-  
day in which one bandit was shot  
and wounded after an unsuccessful  
attempt to hold up the Interstate  
Chemical Company.

In a raid on the home of one  
man tonight, an automobile, a  
quantity of tires and several thou-  
sand dollars worth of other stolen  
goods were recovered.

When seven bandits, several of  
whom were armed, attempted to  
rob the Interstate Chemical Com-  
pany of alcohol today, they were  
confronted by a squad of detec-  
tives who, acting upon a tip, had  
been lying in wait.

Shooting started almost im-  
mediately.

All were captured and one was  
wounded.

Dublin, April 20.—Guerrilla  
warfare continues with unabated  
violence. Some cars of a train car-  
rying military police were de-  
railed last evening between Gon-  
tattie, County Kerry, and Castle  
Ireland, an subjected to much gun  
fire from a ruined building.

Nine houses in Tralee were  
bombed last night. These includ-  
ed the office of the newspapers  
Kerryman and Liberator. Several  
attacks on police barracks are re-  
ported. As O'Connell a fight raged  
for two hours, during which the  
court house was burned down. In  
reprisal for the killing of soldiers  
Sunday evening, several houses  
were destroyed at Ennis. Near  
Sally's Bridge, Dublin, soldiers re-  
turning to barracks were attack-  
ed. They exchanged shots with  
their assailants who apparently  
escaped uninjured.

**MAKE PUBLIC**  
**HOSPITAL NEEDS**

Chicago, April 20.—The dis-  
trict composed of the North At-  
lantic states has the most lack-  
ing in hospital supply is that rep-  
resented by the south central group  
of states, according to statistics  
made public today by the council  
of medical education and hospitals  
of the American Medical Associa-  
tion.

There are 4,013 hospitals with  
a total of 311,159 beds, for pa-  
tients with acute and sub-acute  
diseases, the report said. The  
list includes private, general and  
special hospitals.

**MISS STERLING TIES**

Stirling, American woman cham-  
pion, tied today with another  
player for third place in the  
two day golf championship at  
the Ranelagh club, begun yester-  
day, finishing the two days' play  
with a total of 145 strokes. The  
match was won by Miss Cecil  
Letch, the British champion,  
with 142.

property of several physicians  
and was being taken to a hos-  
pital.

**CENTENARY FUNDS**  
**AVERTED DISASTER**

(By The Associated Press)  
CHICAGO, April 20.—The cen-  
tenary funds of the Methodist  
Episcopal church recently saved  
the church from disaster in China  
and India, Dr. R. E. Diefendorfer,  
secretary of the education depart-  
ment of the committee on conser-  
vation and advance said in an ad-  
dress tonight. The disaster was  
imminent, he said, because of the  
great reduction in the purchasing  
power of the American dollar.

Thru the centenary movement  
in 1920, he said, the church added  
\$10,000,000 of property to that  
already held and made a member-  
ship increase of 190,000 persons.

**FARMERS ASK PLACES**  
**ON VARIOUS BOARDS**

WASHINGTON, April 20.—  
President Harding was asked to-  
day by a delegation of farmers of  
the American Farm Federation Bu-  
reau to appoint a representative  
of farmers on the more important  
government boards including the  
interstate commerce commission,  
the federal reserve board and the  
shipping board.

President Harding was said to  
have assured the delegation that  
at the proper time he would be  
glad to receive recommendations  
from the bureau for appointments  
to the federal reserve board and  
the shipping board.

**WANTS TARIFF TO**  
**SAVE THE SOUTH**

Washington, April 20.—The  
Southern Tariff Association today  
appealed to President Harding and  
congress for a protective tariff  
which it declared was impera-  
tively necessary to save the south  
from "the throes of an economic  
disaster of unparalleled intensity."

A memorial to the house ways

tain, Mich., and Green Bay, Wis.,  
was sentenced to 3 months in the  
house of correction today when  
it was shown that he had given his  
landlady a worthless check on a  
Green Bay bank for \$15. His land-  
lady said he won the love of work-  
ing girls from whom he borrowed  
money with which to live. Two  
Milwaukee and one Green Bay  
girls were swindled out of \$100  
each, according to the evidence.

seven hundred telephone poles  
were blown down in Illinois dur-  
ing the storm that swept the  
state last Saturday, according to  
a report today by the Illinois  
Bell Telephone Company. The  
falling of the poles involved  
destruction of approximately 77  
miles of toll circuit with a loss  
of \$500,000, the report said.

Chapin, April 20.—Mrs. Gus-  
tave Onken very pleasantly enter-  
tained the "Coterie" Wednesday  
afternoon. Fifteen members  
answered to roll call by giving a  
favorite recipe. In this manner  
some excellent ideas were  
brought out on cooking and bak-  
ing. After a brief business ses-  
sion Mrs. Amy Onken gave an  
interesting biography of the life  
and works of George Cram Cook,  
dramatist, and read a two act  
play by the same author, "Sup-  
pressed Desires." During the  
social hour music was furnished  
by the Victrola. The hostess, as-  
sisted by Miss Johanna Onken,  
served dainty refreshments.  
Guests of the afternoon were  
Mrs. Homer McNamara of  
Springfield, and Mrs. Andrew  
Allen.

The Household Science club  
met with Mrs. Alpha Anderson,  
Wednesday afternoon, April 20.  
There were twelve members  
present. The paper for the af-  
ternoon was read by Mrs. B. J.

An interesting magazine  
article was read by Mrs. Monte  
Funk. A much enjoyed social  
hour followed at which time the  
hostess served delicious refresh-  
ments.

**Turn Your "Mite"**  
**Into "Might"**

A dollar isn't much—just about the  
price of a good meal. A quarter is much  
less. With salaries and wages where they  
are now these amounts are just trifles;  
"mites." If you spend them heedlessly  
here and there, that's all they ever will be!

On the other hand, a few odd dollars, a  
couple of loose halves, and a half-dozen quar-  
ters, will give you an exceptionally good  
start on a savings account. You'll never  
miss them, and it sure will give you a pride-  
ful feeling to watch the balance in your  
pass-book grow.

Remember that wages won't always be  
as high as they are now—in fact, they have  
started to slump already. And the pur-

## THE EVOLUTION OF THE TIME PIECE

(By C. H. RUSSELL.)

In the earlier periods of human existence, man had very little use for any device for the measurement of time, except the recurrence of Day and Night. His life was simple. His wants were few. He literally lived from day to day. The idea of dividing one of those days into fractions would probably have seemed as useless to him as the idea of dividing a nickel into pennies seemed to us in the West, a few years ago.

But, as the population increased, and life became a little more complex, and as occupations became more diversified, the necessity arose for some division of time, which should consist of less than an entire day. The first instruments for this purpose were the sun dial and Clepsydra or water clock.

The first mention we have of the sun dial is in the 38th chapter of Isaiah, where it says, "Behold I will bring back again the shadow of the degrees which have gone down in the sun dial of Ahaz, ten degrees backward." But no information is given as to the nature of the instrument mentioned. The earliest dial, of which we have any certain knowledge was that of the Chaldean Astronomer Berosus, and consisted of a hollow hemisphere with its rim perfectly horizontal, and having a head fixed in the center. As long as the sun remained above the horizon, the shadow would fall on the inner surface of the hemisphere; then, by means of lines drawn on the surface, the day was divided into twelve periods.

This style of dial remained in use for centuries, and, indeed the Arabs were using it as late as the year 900 A. D. \* \* \*

Long before the sun dial had been invented the Clepsydra or Water Clock had been known, even in the remote periods of antiquity, and it had been used in China, India, Chaldea, Egypt, and Greece; to which country Plato had introduced them. Julius Caesar found them in Britain when he conquered that country, and it was by this means that he observed that the nights were longer in that country than in Italy.

The lepsydra, in its simplest form consisted of a short necked globe of known capacity, pierced with several small holes thru its bottom, by which the water slowly escaped, and the regular flow of water indicated the lapse of time. The flow of course varied with the temperature, and pressure of the air, and became less as the vessel emptied itself.

The latter objection was removed by keeping the vessel filled to about the same level, and measuring the water which escaped. In the Clepsydra of Ctesibius of Alexandria made about the year 135 B. C., a train of toothed wheels caused the gradual rise of a small figure, which indicated the hours on an index attached to the globe.

The next step in the evolution was the invention of the clock. We are told that Gerbert, who was at the time archbishop of Ravenna, and afterward Sovereign Pontiff, under the title of Sylvester 2nd, constructed a clock consisting of wheels and weights at Magdeburg in 995 A. D. But little is known of this clock, however, the writers of that date give us little information on the subject. Dante, an Italian poet who was born in 1265 and died in 1321 also speaks of a clock which struck the hours.

The first clocks used were what is known as balance clocks, which consisted of a train of

toothed wheels with a Crown wheel escapement, and the regulator in the form of a cross, having two weights to be shifted in regulating the clock. These clocks were very defective and irregular.

After the application of the pendulum the accuracy of clocks was greatly increased. At different times various improvements have been made, in their construction and many additions as the striking of the hours and half hours, indicating the movements of the Heavenly bodies, and later a system of calendar attachments by which are shown the days of the week, month, and year, making the proper change for the different number of days in the various months, even including 29 days for February on leap year. Within the last hundred years great advances have been made in the accuracy of clocks. Especially in those designed for great precision, such as astronomical work, many of these clocks are made with what is known as gravity escapement, and the greatest difficulty to be overcome has been that of the influence of different degrees of temperature, which, on account of the expansion and contraction of the pendulum, seriously interfered with the exactness of their rating. Various devices have been invented to overcome this trouble.

Near the middle of the last century the manufacture of clocks by machinery was begun in America the wheels, plates etc., were punched from sheets of brass, and the remainder of the movements were made by automatic machinery, and the cost of the complete clocks was greatly reduced, until now the Yankee clock is used in nearly every country on earth, and is sold so cheaply, that even the poorest citizen can afford one.

Timepieces moved by springs, and designed to be carried in the pocket, have been in use for a long period, but it is only since the introduction of the balance spring, or hair spring, that they have been capable of any degree of accuracy. The discovery of this very important factor in a pocket timepiece, was claimed by Dr. Hooke, who is said to have first used it in 1656, and also by Huygens, who is said to have first applied it to a watch in 1657. In 1662 we are told that the Earl of Kincardine had a watch on trial, suspended from the lower side of a ship's deck, and kept steady by a weight, on the same principle as the modern ships.

The English Horologist and author, Thomas Reid, whose Treatise published in 1826, is still a standard, up on all matters pertaining to the Art, which were known in his day, says: "The accuracy and exactness obtained by watches at this day, (1826) is marvelous."

And yet, a watch can now be sold for \$5, which will give better performance than the best watch to be obtained in his day, and which will embody improvements, of which Thomas Reid had never dreamed.

In speaking of Time, I have, save when discussing Apparent Time, as obtained by the sun dial, considered it as an article already obtained.

But, in order to measure Time accurately, it is necessary to have some standard to which we can always appeal; which shall be unchangeable and absolutely correct. Time has always been measured, and defined by the motions of the Heavenly Bodies, and particularly by the daily motions of the Earth upon its axis.

## FINE PROGRAMS AT CITIZENSHIP SCHOOL

Large Number of Women in Attendance at Second Day's Sessions of Citizenship School—Excellent Program for Today.

The second day's session of the Citizenship school held under the auspices of the Jacksonville Woman's club were marked by great interest and enthusiasm. The circuit court room was well filled with women at both the morning and afternoon sessions and the programs presented were of especial merit. Mrs. Bemis is proving herself very capable in conducting the school and is to have the assistance today and Friday of Mrs. George C. Sikes, civic instructor Illinois League of Women Voters, Chicago.

The morning program began at 10 o'clock, when Mrs. Bemis discussed "The Federal Government and the States." This was a very clear and concise outline of the federal and state governments and showed the relationship between the two and the way in which they function cooperatively.

The State Legislature. Next came an address on "The State Legislature, Its Functions"—Hon. Thomas Worthington. The speaker gave to his auditors a better understanding than they had had before of the operation of the state legislative body.

The question box at the morning session was conducted by Mrs. Bemis and W. W. Wright and this feature was an especially interesting one. The nature of the questions asked gives proof of the fact that the women attending the school are thoroughly interested in the big citizenship question and are seeking to become familiar with the workings of the law of the land.

The afternoon session. The first speaker of the afternoon was County Commissioner F. L. Mawson, who declared that the greatest problem of the county board is the care of the poor. Many regard the work of the county board, he said, as more especially connected with highway and road improvement and things of like nature, when in reality the most time and attention is given to the welfare of the residents of the county. Mr. Mawson said that it is the hope to have an all time health officer in the county at some date in the not far distant future. J. E. Osborne was announced as one of the speakers Wednesday afternoon but did not appear.

Dr. C. H. Rummelkamp was to have presented the subject, "A Contagious Hospital," but was called out of town and his place was taken by Dr. H. C. Wolman. The latter gave a fine address on short notice, telling of the need of a contagious hospital in Jacksonville and stating that it is the hope of the medical association to establish a contagious ward at Passavant hospital in the near future. As a temporary arrangement the building on North street where the light plant was formerly located is to be fitted up for the care of contagious disease cases.

Judge Floyd Thompson Speaks. Judge Floyd E. Thompson of Rock Island was a visitor at the afternoon session and was asked to make an address. He told briefly of the work of the supreme court of Illinois, of which body he is the youngest member. Mrs. Thompson, who accompanied her husband to the city, is a graduate of Illinois Woman's College and therefore known to a number of local residents.

Dr. Grace Dewey was introduced to speak on the tuberculosis sanatorium and gave a very interesting story of the movement which resulted in the erection of the building which will in future days meet a long felt need.

Mrs. Bemis was on the program for the discussion of "The Technic of Politics." She urged the women present to study the principles back of the various political parties, and then to align themselves with the one which stands for the best things.

The New Neighbors. "The New Neighbors" was the theme of Miss Elizabeth B. Sweeney of this city, who has for some years been associated with the work of the National Catholic Welfare Council. Miss Sweeney's address dealt mainly with the Mexicans within the U. S., but she also talked of the problem of the foreign born in a general way. A brief outline of Miss Sweeney's address is given below:

"Americanization may be one of a hundred things. The term has been used to cover up many things which are not patriotic or Christian in nature. Americanization has been defined as the bringing together of the native born and the foreign born for the purpose of exchanging the best in each. We can make of these foreigners who come to our shores a valuable asset or a treacherous liability.

"If the American man or woman takes the time to study the foreigner, they will find him a valuable help in upbuilding the moral character of the nation. The home life of the foreigner in most cases is beautiful. The foreigner brings with him a physical strength and endurance which is valuable to America. He also brings with him a love of art, a high standard of morality and a beautiful spirit of religion. If we neglect the foreigner we are likely to make of him a dangerous character. It is our duty and our obligation to help him to assimilate the best customs and ideals of America.

In Charge of Work in Paris. The National Catholic Welfare Council was one of the seven large organizations which united shortly before the signing of the armistice for the purpose of furthering the efficiency of their work and to avoid duplication. We have endeavored in our work to carry Americanization on, not only in this country but in Europe as well. I was in charge of the English classes in one of the large community houses in Paris and there saw hundreds of young men and women with but one idea and that to get to America and become American citizens. They were a fine example of perseverance and industry, studying for hours and hours that they might be able to meet the untried situations in this promised land.

"Another branch of the work with which I was associated was the work among the foreign-born in Chicago, that great melting pot of nations. I could tell you a great deal about the work which is being accomplished in this and other American cities in making good citizens of the foreign-born but I intend this afternoon to dwell particularly upon the problem of the Mexican within our borders, as it was these people I had in mind when I chose the subject, 'The New Neighbors.'

The Problem of the Mexican. "During a great part of the war period I was associated with work among the 500 or more delinquent girls who were 'hauling around' the camps at San Antonio. About 160 of these girls were Mexican, practically all of them mentally deficient and in such physical condition that they should not have been allowed to enter this country. There is something wrong with the laws or customs which allow these people to come across the border. Of the 90,000 Mexicans who came into this country last year, fully 50 per cent came illegally. It can readily be seen that the Mexican problem is one of the greatest which confronts the Americanization agencies. I believe the chief reason why the Mexican is almost impossible to Americanize is because of his treatment by the American people in the south. They are forced to live in hovels under shocking sanitary conditions, the like of which I did not see in any of the devastated regions of France. Capitalists are making as high as 200 per cent return on the money invested in these wretched hovels in which the Mexicans live, and they naturally oppose any movement looking toward a betterment of conditions.

"This state of affairs does not so far in making the Mexican a law-abiding citizen of our country. The newcomer from south of the Rio Grande is in reality one of the most perplexing problems with which we have to deal today, and the problem will not be satisfactorily solved for some time to come. In closing I wish to say that if we wish the foreign-born to love America we must first love America ourselves."

At the close of Miss Sweeney's address came the question box, conducted by Mrs. Bemis and Carl E. Robinson, state's attorney. As was true at the morning session, a number of questions were propounded and answered in an enlightening way.

The program of today is an excellent one and is as follows: Morning Session. 10:00—Social Agencies in Our Government—Mrs. George C. Sikes, Civic Instructor, Illinois League of Women Voters, Chicago. 10:45—Juvenile Court and Morgan County Women Cases—Judge H. P. Samuel. 11:20—Question Box—Mrs. George C. Sikes, Mr. Hugh Green.

Afternoon Session. 2:00—Structure of Government (Federal and State)—Mrs. George C. Sikes. 2:30—Fundamentals of Student Citizenship—Mr. H. A. Perrin. 3:15—Training of Youth—"Movie" Influences—Father F. F. Formaz. 3:45—School Law in Its Relation to Parents and Students—Mr. H. H. Vasconcellos. 4:15—Question Box—Mrs. George C. Sikes, Mr. J. P. Lipincott.

## JACKSONVILLE HAS ONE MORE CHANCE

Failure of Members to Appear Postponed Inspection of Company K Wednesday Night—Col. Jones Consented to Stay Over and Give Them Another Chance.

Lieut. Colonel Frederick M. Jones, U. S. army was at Co. K armory last evening for the purpose of inspecting Co. K for federal recognition. Colonel Jones was accompanied by Lieut. Colonel Chas. W. Numan of Champaign.

Co. K had been ordered to appear at their armory at 8 p. m. last evening. When Colonel Jones appeared at the armory at the hour specified there were but twenty-three enlisted men on the floor out of a total enlistment of fifty-three.

According to the regulations the attendance was too small for a federal inspection. Colonel Jones, after thanking the men who were present for their loyalty to state and nation, declared that he could not inspect Jacksonville company for federal recognition on account of the failure of a sufficient number of men being present.

The usual result of such an inspection is for the U. S. inspecting officer to declare the unit unfit for federal service and assign the company to some other city. After a conference with Colonel Numan, Colonel Jones consented to remain until tonight and give Jacksonville a chance to redeem itself. Accordingly Col. Jones will arrive at the armory at 8 o'clock tonight for inspection.

Now Jacksonville has another chance to hold up its military reputation. Every man who has enlisted in Co. K should be at the armory at 8 o'clock sharp. This matter is of vital importance to every citizen of this city.

## MURRAYVILLE CLUB HOLDS RECEPTION

Children Under School Year Examined Wednesday as Part of Health Week Observance.

Murrayville, April 20.—As part of the child welfare work in connection with health week observance, children of this community under school age were examined Wednesday afternoon at the city hall. The work was in charge of Miss Riecke, county nurse who was assisted by Miss Nell Rimboe, R. N. A number of mothers brought their children for examination, but the unfavorable weather conditions interfered greatly with the attendance.

An excellent three course luncheon was served at 5:30 o'clock for the physicians and their wives and the nurses. Later some time was spent in a pleasant social way. The general committee in charge of the arrangements included Miss Nell Rimboe, chairman, Mrs. Susan Carlson, Mrs. A. H. Kennedy and Mrs. Austin King. The reception committee was made up of Mrs. J. E. Thompson, chairman, Mrs. J. H. Spencer, Mrs. C.

Those who responded were: Miss Lucille Kennedy, president of the Junior class; Miss Helen Cleary, president of the Senior class; John Zell of the senior class and members of the faculty.  
Following the program the company enjoyed dancing to excellent music furnished Roland

**ALEXANDER MAN KILLED BY TRAIN WEDNESDAY**  
Harvey Knicey Met Instantaneous Death Near Ashland When Car Is Struck By Train—Others in Party Suffered Minor Injuries  
Harvey Knicey of Alexander met instantaneous death at about 2:30 o'clock Wednesday afternoon, when a car he was driving was struck by a B. and O. passenger train near Guernsey, four miles east of Ashland. Others in the party were injured but none seriously. They were J. P. Willetts, George Cockin, Kenneth Beers and Jacob Knicey, son of the dead man.  
Stories of the accident were somewhat contradictory, but according to one of the men in the party, the car "went dead" on the railroad track directly in front of the east bound passenger train. Mr. Knicey shouted for the others to jump from the car but was unable to do so himself. The car was struck by the locomotive and turned completely over. Mr. Knicey was hurled from the car, his head striking the rail and death was instantaneous.  
The men were returning from a fishing trip to the river, having left their homes in Alexander at an early hour Wednesday morning.  
Jacob Knicey was the only one in the party not injured. Mr. Willetts, suffered an injury to one shoulder and Mr. Cockin a gash in the head. Mr. Beers was painfully bruised and all were more or less shaken up.  
The remains of Mr. Knicey were taken to the undertaking parlors of Edward Zahn at Ashland and Coroner Saunders of Cass county will hold an inquest there at 10 o'clock this morning. The remains will be then taken to the home of the deceased northeast of Alexander.  
The deceased had been a resident of Alexander precinct for a great many years past and was about forty-six years of age at the time of his death. He is survived by a wife and six small children. The deceased was a member of the Masonic and Odd Fellows organizations and was a man who had the respect and good opinion of all who knew him.  
Funeral arrangements have not been completed and will be announced later.

**MATRIMONIAL**  
Coffee-Johnson  
Eph Coffee and Miss Coot Johnson, both of Morgan county, were united in marriage Wednesday morning, Judge H. P. Samuel performing the ceremony at his office in the court house. The witnesses to the ceremony were G. L. Riggs and F. W. Brockhouse. The groom is an employee of Andrew Harris in the Orleans neighborhood and it is in that vicinity that the couple will reside.

**CHILD WELFARE WORK AT MURRAYVILLE**  
Domestic Science Club Members Entertain Executive Committees of Neighboring Clubs.  
Murrayville, April 20.—At a reception held Wednesday afternoon by the Murrayville Domestic Science club, the guests of honor were the executive committees of various woman's club in the county and of the Morgan county Federation. The reception was held in the domestic science room of the high school and was largely attended. There was no formal program, the threatening weather conditions making a change necessary in this particular.  
The visitors were greatly interested in hearing about the domestic science work which is being carried on at the Murrayville school. This department was added to the school work as a result of the interest of the club women. They fitted up the room and made arrangements for the coming week of a domestic science student of Illinois Woman's college to give instruction to the pupils of the school. The club women of the county have been greatly interested in the work of the Murrayville club and have been gratified to learn from time to time of the success of the domestic science project. It was because of this interest on the part of the other clubs of the county that led the Murrayville club to extend the invitation to attend the reception Wednesday afternoon.  
The executive committee of the Murrayville club includes Mrs. R. D. Mawson, president; Mrs. J. L. Solomon, vice president; Mrs. G. H. Strang, secretary-treasurer.  
Among clubs represented at the Wednesday afternoon reception were the Alexander, Strawn's Crossing, Arnold, Waverly, Franklin, Chapin, Woodson, Mound Woman's and Morgan County Federation.  
During the afternoon a delightful luncheon was served.

## Rich, Nourishing Blood Gives You Robust Health

As sap to the tree, as steam to the engine, as electric current to the motor, so is bright, invigorating, strengthening blood to your body.

Those alert, ruddy, healthy, prosperous people you know owe their success to the energy given by the rich, nourishing blood that built up their bodies strong and gave them brain power.

When the blood is impure, you lack energy and ambition. You feel out of sorts, and look it. But when it is healthy, oh how good you feel! How well you look!

Don't envy your healthy acquaintances, be healthy yourself. You can start the foundation for all good health today by starting to enrich the blood with S. S. S., the famous old remedy compounded from fresh herbs.

All druggists carry S. S. S. It has been on the market fifty years. Get a bottle right now, and start taking. Then write about your individual condition to Chief Medical Advisor, 833 Swift Laboratory, Atlanta, Georgia, and we will send you special advice free.

## Performing an Imperative Service

THE total number of motor cars registered in the United States for the year 1920 records a gain of 17.16% over 1919. There is an automobile for every 12 persons throughout the country.

In the representative states served by the Standard Oil Company (Indiana) the percentage of gain is 23.43%. In South Dakota there is an automotive vehicle for every 5.24 persons in the state.

The increases over 1919 in the states served by this Company are:

States	1919	1920	Percentage of Increase
So. Dakota	104,625	122,040	16.64
Iowa	363,000	442,200	21.81
Minnesota	259,743	323,572	24.57
Missouri	229,577	295,817	28.85
Kansas	228,601	265,385	16.09
No. Dakota	82,885	90,840	9.59
Michigan	296,378	412,275	39.10
Wisconsin	236,974	303,246	27.96
Indiana	277,255	332,207	19.82
Illinois	478,438	569,127	18.97
	2,557,476	3,156,709	

Sixty percent of the new cars sold in the ten states served by the Standard Oil Company (Indiana) during 1920 were bought by farmers. These figures indicate one reason why the demand for petroleum products was so insistent in this territory. The farmer had to conserve his time and the automobile was the only solution for this problem.

Another reason was the increase of automotive machinery on the farm, for these machines were the deciding factor which insured the phenomenal crops harvested during 1920.

The efficiency of this motor driven equipment was due in a large measure to the efficiency of the Standard Oil Company (Indiana) system of distribution, which assured the farmer that his needs would be supplied and his time conserved.

The Standard Oil Company (Indiana) is an essential economic factor in the national life. It contributes a definite quota of imperative service to society. It is especially organized to render this service. It operates in an environment of the most intense competition; it survives because it is efficient.

**Y. M. C. A. IN CHINA**

The Young Men's Christian Association is at its best in the cities of China; it attracts to its membership young men, many of whom will be leaders in the new order.

Viewed as a financial investment, the support of these centers should appeal to business men who wish to see the heaven of progress injected into China.

To those who consider religious value, the diverting of these potential Chinese lads—many of them from a setting of deceit, vice and selfish comfort to the standards that culminate in reverend, modest, frank Christian manhood—eager to rush to the needs of the Chinese people, this is the supreme thing. To see the West and East thus conferring together has brought the tears more than once to my own eyes.

During the eight years I have been in China I have seen the Association in operation. I fail to convey my meaning unless it is understood that the Association Movement in China is one of the major forces in Asia—ranking in significance with Perry's opening of Japan.

**LAUN-DRY-ETTE**  
WASHES AND DRIES WITHOUT A WRINGER

PEOPLE in general and women in particular are realizing more and more that housekeeping is as much a business as running an office or a factory.

If the home is equipped with an Electric Iron, Electric Vacuum Sweeper and an Electric Washer the wife no longer has to work "from sun to sun."

Chief of all Electric labor savers is the Electric Washer—and the chief of Electric Washers is the LAUN-DRY-ETTE.

Just put the clothes in this big cast aluminum cylinder and start the mill-race of water to surging through them. In fifteen minutes they are ready for the drying process, which is done WITHOUT A WRINGER.

The Maytag Electric and Multi-Motor Washer is another machine we should like to show you. It is of an entirely different type from the Laun-Dry-Ette and the world's leader of its kind.

**ARTIE HOFMAN WILL RETURN TO BASEBALL**  
Chicago, April 20.—(Circus Solly) Hofman, Chicago Cub centerfielder from 1906 to 1912 has returned to baseball after nine years in the commercial world. Announcement was made today of Hofman's appointment

to coach a high school team here. In 1908 it was Hofman's throw from center to Johnny Evers at second that forced Merkle of the New York Giants, causing the game, which was for the pennant to end in a riot. The Cubs won the title.

#### POOR PITCHING GIVES NEW YORK GAME

Boston, April 20.—New York took advantage of the inferior pitching of Scott, Fillingim, Pierotti and Ira Townsend today, defeating Boston, 9 to 5. Nehf was hit safely four times in the eighth and Barnes relieved him, stopping the Boston rally. Nicholson's hitting was a feature. The score:

#### TODAY IS BIRTH REGISTRATION DAY

In the week's calendar for Illinois State Health week, today is designated as birth registration day. Miss Ryman, who is chairman of the work in Jacksonville, picked at random twenty-five children under five years of age and found that in looking up the names at the court house, two of them were not registered. This shows that every birth is not registered. It should be in order to prove a child's age and citizenship, his right to go to school, his right to work, his right to an inheritance, his right to marry, his right to hold office, his right to secure passports for foreign travel and to prove his mother's right to a widow's pension. These are valid reasons for birth registration. Is your child's birth recorded?

#### BOARD MEETING.

There will be the regular quarterly meeting of the board of trustees of Passavant hospital at the hospital tonight at 7:30. A full attendance is desired.

#### A NURSE'S ADVICE

Hoopeston, Ill.—"It is with pleasure that I recommend Dr.

very beneficial, and I have recommended it to my patients, many of whom have also been benefited. Dr. Pierce's medicines are worthy of all the praise I can give them. I put them ahead of all other ready-prepared medicines, knowing them to be pure and that they do not contain any injurious drug." MRS. LYDIA LOWE, Box 65.

#### Rebuilt Upright Pianos At Popular Prices

These we thoroughly rebuilt in our workroom, replacing worn parts, making the same as new in all respects. This is a REAL opportunity to get a good piano at a low price.

#### We Can't Break the News as Long as Somboddy Else Owns This Newspaper

To talk FEED as we should talk feed, is impossible. This paper gets so much an inch for space. To tell the story as it should be told would take every one of its numerous pages.

They would have to leave out the Balkan news and the bootlegging items. Society would be miffed and Mrs. Jones, who has just returned from visiting her sister-in-law at the county seat, would be mad.

So we'll go easy—and simply say that if you want FEED in the full sense of the word—quality in its most comprehensive form—value working with its coat off, call
